

Overall:

- We changed what we wanted to save from specific entities to entire podcasts with all entities inside the saved podcasts

Description:

- We had to change the description to account for the change in saving podcasts as well as moved our previous creative component into the description because it wasn't a valid creative component.

Good Creative Component:

- We moved our previous creative component to the description and made a more valid creative component.

Usefulness:

- We changed this file to reduce confusion that was commented on

Work Distribution:

- We changed the work distribution to account for our updated creative component.

UI Mockup:

- We changed the UI mockup for our updated creative component.
